Why join the Digital Repository of Ireland?

1. Digital Repository of Ireland • Members Benefits •
   DRI Expertise & Collaborative Network
   By joining DRI, you can benefit from and contribute to a robust e-infrastructure for data archiving and preservation, as well as a community network for the exchange of ideas, approaches, and best practices. In becoming a member of DRI, you also contribute directly to the sustainability and growth of DRI’s services.
   DRI advocates on behalf of its members for national and international strategies and policies on data preservation, sharing, and reuse.

2. DRI Training & Professional Development
   DRI places continuing professional development at the core of its training programme and runs a wide range of workshops and symposiums annually. These events are relevant for all levels of expertise across a range of disciplines and institutions.
   DRI publishes user guidelines, factsheets, and reports which document all aspects of digital curation and preservation and are used nationally and internationally.
   Members will avail of free places, discounts, or priority booking on all events.

3. Long Term Digital Preservation
   DRI is a Trusted Digital Repository (Data Seal of Approval granted in 2015) that provides long term digital preservation and access to digital collections. Preservation is more than storage, and DRI offers a range of expertise and technologies to ensure that national and international standards of best practice are met. Trusted Digital Repositories are key to meeting the research data management demands outlined by funding agencies.

4. Online Publication of Collections
   DRI ensures that our members’ digital collections and data are associated with rich metadata and contextual information, supporting a range of widely adopted metadata standards. DRI has also implemented the IIIF standard, which enables deep zooming and side-by-side viewing of different images. Access to the DRI API allows members to develop bespoke portals to their digital collections and objects, which are deposited and preserved within DRI. DRI grants exemplary access to the general public and specialist audiences to our cultural and social heritage.

5. Sharing of Collections
   DRI hosts collections from a diverse range of members organisations and supports serendipitous discovery and increased reach via associations with similar objects from other members. All published objects are assigned DOIs – unique permanent identifiers which ensure the long-term discovery of the objects.

The above presents a summary of membership benefits – for full details, see the Membership page on the DRI website: www.dri.ie/membership. Terms and Conditions apply.
The Digital Repository of Ireland (DRI) is a national trusted digital repository for Ireland’s social and cultural data. The repository links together and preserves both historical and contemporary data held by Irish institutions, providing a central internet access point and interactive multimedia tools. As a national e-infrastructure for humanities and social sciences research data across the education, culture and public service sectors, DRI content is available for use by the public, students and scholars. As a community hub, DRI facilitates and helps build a network of shared interest to forward the goals of preserving, stewarding, and providing access to Ireland’s social and cultural digital heritage. This community hub provides support for best practices in data management, fosters collaboration and economies of scale, and provides ready opportunities to leverage funding for research projects.

## About the Digital Repository of Ireland

The Digital Repository of Ireland (DRI) is a national trusted digital repository for Ireland’s social and cultural data. The repository links together and preserves both historical and contemporary data held by Irish institutions, providing a central internet access point and interactive multimedia tools. As a national e-infrastructure for humanities and social sciences research data across the education, culture and public service sectors, DRI content is available for use by the public, students and scholars. As a community hub, DRI facilitates and helps build a network of shared interest to forward the goals of preserving, stewarding, and providing access to Ireland’s social and cultural digital heritage. This community hub provides support for best practices in data management, fosters collaboration and economies of scale, and provides ready opportunities to leverage funding for research projects.

## Eligibility

Membership is open to:
- Research Performing Organisations
- Institutions, organisations and digital archives that hold humanities and/or social sciences data

## Membership Fees

<table>
<thead>
<tr>
<th>Full membership</th>
<th>€5,000</th>
</tr>
</thead>
<tbody>
<tr>
<td>Associate membership</td>
<td>€450</td>
</tr>
</tbody>
</table>

Membership extends for one calendar year and is renewed annually.

A discount of 10% will be applied for members committing to a three-year subscription, and fees will be fixed for the three-year period:
- Full membership | €4,500 per year
- Associate membership | €405 per year

DRI is committed to serving a wide variety of institutions, organisations, and groups. Unfunded organisations may also apply to join DRI; please contact for more information: members@dri.ie

## Funding

DRI receives a core operating grant from the Higher Education Authority and the Irish Department of Education and Skills via the Research Council that covers a percentage of operating costs. The remainder of operating costs are raised through membership fees and external grants.

www.dri.ie

## Benefits

### Member Networking and DRI Development

Access to a network of expertise, collaboration, and common purpose
- Full
- Associate

Ability to nominate a representative to DRI’s Board
- Full
- Limited

Access to DRI communications networks for dissemination of events, recruitment, calls for collaboration
- Full
- Limited

Posting rights to the DRI-SHARE mailing list for community discussion and advice
- Full
- Limited

Ability to influence DRI’s development and provision of services
- Full
- Limited

Input into the focus of DRI’s advocacy, e.g. on the development of a national digital strategy, discussions with funders, contributions to national/international e-infrastructures
- Full
- Limited

Streamlined communications and updates about developments in international networks: via DRI’s memberships (e.g. DARI, Samvera, RDA, IIIF, ALLEA, OAI-DC, DPC)
- Full
- Limited

Use of DRI Member logo on website and other publications
- Full
- Limited

Invitation to the DRI Members’ Forum (twice yearly)
- Full
- Limited

Eligible to join DRI Task forces that shape DRI’s requirements
- Full
- Limited

Opportunity to leverage funding via joint applications to funding bodies
- Full
- Limited

Preferential access to DRI experts for support and advice
- Full
- Limited

DRI procurement advice
- Full
- Limited

### DRI Training & Professional Development

Access to publications, guidelines, templates, and policy advice
- Full
- Limited

Priority booking for training sessions on collection creation and ingest into the DRI repository
- Full
- Limited

Priority access to conferences, seminars and problem-targeted workshops for staff development and training
- Full
- Limited

Discount to DRI conferences, symposia and events
- Full
- Limited

Eligible to apply for grants/scholarships to attend events in DRI’s network
- Full
- By invitation

### Long Term Digital Preservation

Long term digital preservation of collections by DRI, a certified Trusted Digital Repository. This includes a robust series of preservation actions.
- Full
- Limited

### Online Publication of Collections

Deposit of additional collections with each year of membership:
- Support for international metadata standards (Dublin Core and Qualified Dublin Core, MODS, MARC, EAD)
- Public access to online collections via the user-friendly DRI portal
- Increased reach and visibility of collections
- Members retain control and management of their collections

Image publication via the IIIF standard, enabling in-frame comparisons across multiple online platforms
- Full
- Limited

Access to DRI API, e.g. to enable development of bespoke front end access or exhibition layer
- Full
- Limited

### Sharing of Collections

Increased discoverability of collections, via linking of collections and objects with other member’s collections
- Full
- Limited

Assigning of Permanent Identifiers (Digital Object Identifier/DOI) to every DRI object
- Full
- Limited

Interoperability that provides seamless exchange across multiple platforms:
- Automatically generated citations for collections and objects
- Exporting data in multiple formats (e.g. XML, Endnote)
- Formats consistent with other important data dissemination platforms, e.g. data.gov.ie, heritagemaps.ie
- Sharing of collections to range of social media platforms
- Full
- Limited

### Information Services

1. DRI Expertise & Collaborative Network

By joining DRI, you can benefit from and contribute to a robust e-infrastructure for data archiving and preservation, as well as a community network for the exchange of ideas, approaches, and best practices. In becoming a member of DRI, you also contribute directly to the sustainability and growth of DRI’s services.

DRI advocates on behalf of its members for national and international strategies and policies on data preservation, sharing, and reuse.

2. DRI Training & Professional Development

DRI places continuing professional development at the core of its training programme and runs a wide range of workshops and symposia annually. These events are relevant for all levels of expertise across a range of disciplines and institutions.

DRI publishes user guidelines, factsheets, and reports which document all aspects of digital curation and preservation and are used nationally and internationally.

Members will avail of free places, discounts, or priority booking on all events.

3. Long Term Digital Preservation

DRI is a Trusted Digital Repository (Data Seal of Approval granted in 2015) that provides long term digital preservation and access to digital collections. Preservation is more than storage, and DRI offers a range of expertise and technologies to ensure that national and international standards of best practice are met. Trusted Digital Repositories are key to meeting the research data management demands outlined by funding agencies.

4. Online Publication of Collections

DRI ensures that our members’ digital collections and data are associated with rich metadata and contextual information, supporting a range of widely adopted metadata standards. DRI has also implemented the IIIF standard, which enables deep zooming and side-by-side viewing of different images. Access to the DRI API allows members to develop bespoke portals to their digital collections and objects, which are deposited and preserved within DRI. DRI grants exemplary access to the general public and specialist audiences to our cultural and social heritage.

5. Sharing of Collections

DRI hosts collections from a diverse range of members organisations and supports serendipitous discovery and increased reach via associations with similar objects from other members. All published objects are assigned DOIs – unique permanent identifiers which ensure the long-term discovery of the objects.

The above presents a summary of membership benefits – for full details, see the Membership page on the DRI website: www.dri.ie/membership. Terms and Conditions apply.
