Dublin Institute of Technology

DIT at a glance

- A history in Dublin city, dating back to 1887
- Dublin Institute of Technology was formed in 1978 and established under legislation in 1992
- Currently 19,000 students – from apprentice to PhD – in 2012
- 20% of student population come from outside Ireland
- 15% of DIT students are mature learners
- Students registered on programmes in four Colleges – Arts and Tourism; Business; Engineering and Built Environment; Sciences and Health
- Educating 9% of all higher education students in Ireland
- One of four degree-awarding bodies in Ireland
- Circa 2,500 staff members of academic, administrative and support staff
- 800 students and academic staff actively engaged in research
- Ranked in the top 3% of universities internationally by THES and QS
- 4000+ graduates each year
- Active in civic and industry engagement
- Annual budget circa €185m

For further detail, please see our DIT profile.

Dublin Institute of Technology

DIT is committed to responding to the challenges and opportunities that have emerged in Irish higher education, engaging positively in institutional collaboration both nationally and internationally, and in developing a strategy of widening participation and community engagement. We are now preparing for the next phase of our development with the relocation of all DIT activities to an integrated, state-of-the-art campus in Dublin's city centre, and to the development of the Technological University of Dublin.

College of Arts & Tourism

The College of Arts & Tourism at DIT nurtures innovation and creativity across and between its seven Schools and academic disciplines. The College is committed to the development of knowledge which benefits society. The College provides a range of unique and innovative programmes (usually first in their field) in a modular format including higher certificate, degree, master degree and postgraduate research.

Digital Media Centre

The Digital Media Centre (DMC) is a multidisciplinary group which focuses on research and commercial projects in the field of Information and Communication Technologies (ICT). The DMC is based in Dublin Institute of Technology (DIT), Aungier Street and is part of the College of Arts and Tourism.

The DMC's current focus is on projects in the following areas; culture and heritage, language learning, multimedia interaction, spatially aware computing, digital heritage and machine learning. The Centre places itself at the cutting-edge of innovation technologies and constantly strives to improve whilst focusing on emerging technologies.

The DMC positions itself as a problem-solver in the field of ICT to the private and public sector, offering consultancy, expertise and innovation.

DMC research is carried out by a combination of academic staff, research professionals and postgraduate students, and is funded from a variety of sources including the European Union, national agencies such as Enterprise Ireland and Science Foundation Ireland and internally in the DIT.

The DMC Studio looks after the commercial aspects of projects. This includes assisting on research projects with specific commercial requirements or identifying suitable businesses that may require support with ICT projects. The Studio will work with a client on identifying their objectives and the technical requirements necessary to meet these, and can also assist with funding, if required. The Studio boasts a talented pool of resources including designers, developers, project managers and modelers, all with expert knowledge in ICT as it applies to the DMC's aforementioned specialist areas.

Job Description

• Role Overview

The Digital Media Centre is seeking a Software Engineer to carry out software development in the Digital Cultural Heritage research programme.

This post requires software development in the Digital Repository of Ireland project. The role is that of a specialised front-end developer with specific skills in Ruby/PHP/Javascript development.

The job involves undertaking primarily front-end (User Interface) development in collaboration with other DRI team members in DIT and the other partner institutions. The principle technical development work in DRI is carried out by DIT, Trinity College Dublin and NUI Maynooth.

• Principal Accountabilities

The key responsibilities of the job include:

1. Translating visual designs and user interaction specifications into HTML markup.
2. Ensuring that designs are cleanly implemented in the DRI application Views.
3. Maintaining clear code and user documentation as necessary.
4. Participating in and contributing to team meetings at local and project-wide level.
5. Making contribution to published reports and papers under the supervision of the Principle Investigator.

Person Specification

The ideal candidate will demonstrate the appropriate mix of knowledge, experience, skills, talent and abilities as outlined below:

Knowledge

- A Primary Degree or equivalent award by an approved degree-awarding authority (*essential*)
- A Masters qualification with business relevance

[Note: Masters Degrees must have been obtained by thesis/examination]

Experience

- 2+ years of demonstrable experience in developing web UI applications.
- 1+ years of demonstrable experience in Ruby on Rails views development.
- Experience in undertaking research and in working on large projects
- Experience in administrative duties, minute taking and meeting organisation

Skills, talents & abilities

- Solid grasp of cross-browser, object-oriented JavaScript (closures, inheritance, etc)
- Experience in developing AJAX-enabled web applications
- Knowledge of, and a preference for, JavaScript frameworks such as jQuery
- Experience in an open source / collaborative project (examples: committing code, writing plugins, writing documentation, involvement in user forums).

- Effective written and verbal communication skills with ability to present complex information effectively to a range of audiences
- Ability to work collaboratively and as part of a team

Eligibility to compete

Citizenship / Permit Requirement:

Eligibility to compete is open to candidates who are citizens of the European Economic Area (EEA) or Switzerland. The EEA comprises member states of the European Union along with Iceland, Liechtenstein and Norway. Other candidates may be eligible to compete subject to their having or obtaining an appropriate work permit for the nature and duration of the position.

Former Public Service employees:

Eligibility to compete may be affected where applicants were formerly employed by the Irish Public Service and previously availed of an Irish Public Service Scheme including:

- Incentivised Scheme for Early Retirement (ISER)
- Department of Health and Children Circular (7/2010)
- Collective Agreement: Redundancy Payments to Public Servants

Applicants should ensure that they are not precluded from re-engagement in the Irish Public Service under the terms of such Schemes. This is a non-exhaustive list and any queries should be directed to an applicant's former Irish Public Service Employer in the first instance.

Terms and Conditions of Employment

A full statement of terms and conditions of employment will be given to the successful applicant in accordance with Terms of Employment (Information) Acts 1994 and 2001. The main terms and conditions of employment are as follows:

Tenure:

This post is offered on a fixed purpose basis for up to five years from the date of appointment.

Salary:

This post will be aligned to the Research Administrator Grade C Salary Scale for pay purposes only. Starting salary will be at the minimum of the scale i.e. €45,781. The scale runs from €45,781- €55,210 (5 point scale + 2 LSIs).

Hours of work:

39 hours working week is operation. Hours may be adjusted from time to time under sectoral agreements.

Probation:

The terms of the Institute's Staff Induction and Probation Policy will apply.

Annual leave:

Annual Leave is 20 days per annum (Full time equivalent). Part time Employees and Employees who commence employment during the leave year will be entitled to a pro-rata annual leave entitlement. Annual leave to be taken within the duration of the contract and as agreed between the Project Director and the individual.

Retirement:

The post is not pensionable. The appointee will not be entitled to join the Education Sector Superannuation Scheme however the Institute has a PRSA in place. A PRSA is a straightforward pension product that was introduced in 2003 by the Pensions (Amendment) Act 2002. It is a contract between an individual and the authorised PRSA provider in the form of an investment account that can be used to save for retirement.

Applicants should note that they will be required to complete a Pre-Employment Declaration to confirm whether or not they have previously availed of an Irish Public Service Scheme of incentivised early retirement or enhanced redundancy payment. Applicants will also be required to declare any entitlements to a Public Service pension benefit (in payment or preserved) from any other Irish Public Service employment.

Sick Leave:

Up to 7 single days' per two years uncertified sick leave plus a maximum of 14 days certified sick leave per annum pro rata may be granted. Pro rata sick leave entitlements will apply to part time contract and contracts of less than one year's duration. Payments in respect of sick leave will be adjusted by reference to any disability benefit received from the Department of Social Protection.

Other conditions:***Nature of the post:***

The post is wholtime and fixed purpose and subject to the terms of the provisions of the Dublin Institute of Technology Acts 1992 to 2006 and any subsequent Acts replacing or amending these Acts and any orders and regulations made under these Acts will apply.

Application Process

Application Form

Applications will be accepted through the online application service at www.dit.ie/vacancies . A CV will be required in addition to the application form. All correspondence from the Institute regarding your application will be by email. Please ensure that the security filters on your email provider will accept emails from DIT.

Closing Date

The closing date for applications is **5 pm on Wednesday, 16th January 2014**. Late applications will not be accepted.
